# Try It Yourself

In this activity you will practice how to use `<title>` and `<p>` elements

1. Add the title element and the text which you have chosen as a title of the web page
2. Save and run the web page. You should be able to see the title
3. Add three paragraphs to your web page. The text can be anything. We have used text from Lorem Ipsum (<https://www.lipsum.com/feed/html>)
